are the basic source of education for most of the people of the country and they are the ones who shape the future of the country. Teachers can very easily decide what they want the country to be like and educate the public accordingly. They have the ability and strength to fight adversities and make India a powerful and well-educated country.

Chief guest Dr. S. P. Sinha Speaking on the topic of the seminar today - Role of Teacher Education in Nation Building And Its challenges, the chief guest said that- The role of education is very important for the uplift of the country, society, and the world. In India, the glory of the Guru has been described as unparalleled. Teachers create the future. As quoted by the great thinker Aristotle, "Teaching is the highest form of understanding." Among all professions, teaching is the only profession that invests in the future and creates the future. Underlining the importance of teachers, Swami Vivekanand said: "My dearest and nearest relative in life is my Guru; next, my mother; then my father. My first reverence is to the Guru. If my father says, "Do this", and my Guru says, "Do not do this", I do not do it. The Guru frees my soul. The father and mother give me this body, but the Guru gives me rebirth in the soul." He did not stop here and heaped praises on Gurus for their selfless service and devotion. He remarked: "It is easier to become a Jivanmukta (free in this very life) than to be an Acharya. For the former knows the world as a dream and has no concern with it; but an Acharya knows it as a dream and yet has to remain in it and work."

## OUTCOMES:-

- Teachers are responsible for imparting knowledge and skills to the next generation. They will be able to equip students with the essential tools they need to become productive members of society.
- Education plays an important role in nation building as it contributes significantly to the social, economic and political development of a country. It is considered the cornerstone of progress and a means of promoting a united and integrated society.
- The teacher's first and immediate challenge was to shape a nation that was united, yet accepting of the diversity present in society and to eradicate poverty and unemployment. The second challenge was to establish democracy

## About The College

Our Institution K. N. Bakshi College of Education was established in the year 2013 is affiliated with Vinoba Bhave University, Hazaribag and is recognised by ERC, NCTE Bhubaneswar. Initially it started with B.Ed course and later added D. El. Ed course it's affiliated to Jharkhand Academic Council, Ranchi.

It is located in bestowed beauty of Woody ambience in Giridih. The college is two kilometer from Bengabad chowk, about seventeen kilometers from Giridih bus stand and easily accessible by road.

The college through its dedicated faculties, not only impart quality education but also ensure to make the students undergo training on various aspects of teaching with an objective to produce quality teachers with high moral values. Right from practicals, POT and the assignments, College motivates and involves each student in art and craft, model making sports, dance, drama, singing and other extra-curricular activities.

The college provides an eco-friendly atmosphere for the students that helps the them to achieve their goals easily. The institution has a well-developed, established infrastructure to nurture the young minds towards right directions.

College with a State of art infrastructure has always produced outstanding results in all University examinations.

## ABOUT THE SEMINAR

Education is fundamental in achieving full human potential, which helps developing an equitable and just society, leading to promotion of national development. Providing universal access to quality education is the Key to Indian's continued ascent, and leadership on the global stage in terms of economic growth, social justice & equality, scientific advancement, national integration and cultural preservation. Universal high quality education is the best way for developing and maximizing our country's rich talents and resources for the betterment of the individual, society, country and the world. India will have highest population of young people in the world over the next decade and our ability to provide high quality educational opportunities to them will certainly take of our country to new heights.

New India is about achieving the vision of our Union as envisaged in the Preamble to the Constitution. It constitutes an endeavour to achieve justice (social, economic, political), equality of opportunity, liberty, fraternity, unity, integrity and safeguarding national interests and sovereignty of the country. To achieve such lofty ideals in real life, New India would also have to mean good governance that works on the principles of efficiency, economy, effectiveness, ethics and ethos. One of the key pillars of ensuring good governance is the participation of civil society that includes non state actors as well as individuals.

The role of a teacher is to shape the minds of the younger generation. That shaping shall be on positive lines, development of a scientific and humanistic attitude and self-discipline. A teacher has to generate the dynamism to inspire the students. The influence of teachers' behavior plays an important role in the academic achievement of students. A teacher has to display exceptional empathy, persistence, diligence, sincerity, research orientation, honesty and flexibility as a person. In generating enthusiasm or avidity for learning a teacher must be a good motivator. The teacher can do this by creating a very interesting classroom environment.

The present Seminar on "Role of Teachers' in New Education Policy : 2020" is aimed at strengthening the given objective.

Hope this seminar would help in shaping young minds and immensely contribute in the development of nation.
