make her vulnerable to a number of risks. Protecting her through is a challenge to the parents.

The Child Sex Ratio (CSR) leads us to the gender biased sex selection involving parents and pathological technicians. Studies and rules against this selection are still a far cry from success. Attempts are being made from the local to the global level to curb this practice. To regulate such malpractices the government has brought the 1994 act on the Pre Natal Diagnostic Techniques (Regulation and Prevention of Misuses). This Act

lays down strict rules on prohibition of sex selection and sex revelation of the foetus. Save the child foundation reveals the state of girls in society and the need for a better tomorrow for them. Society has to fight the stereotype mental setup of autocratic beliefs, early marriage as a solution for the fear of being a victim of abuse."

Asst. Prof. Mr. Vinod Kumar Suman addressed that "Mother is the first teacher of her child, if the mother is well educated then she can provide proper education to her child. If the girl child will be educated properly then she can create a well culture educated family. There for everybody should be conscious about the girl child education."

Conclusion:

Beti Bachao Beti Padhao campaign today played a vital role in changing the mind-sets of the villagers, and become aware about Girl Child's Education. This type of awareness programme will be helpful in the improvement of the Sex Ratio at Birth (SRB), and in the long term, BBBP aims in improvement in CSR with manifestation of over-all development such as improved health & nutrition, gender parity in education, better sanitation, opportunities and removal of asymmetries between the genders.

LABOUR DAY CELEBRATION

REPORT ON LABOUR DAY:

May 1st is celebrated as International Labour Day or May Day. This day has its origin from the Labour Union Movement in the U.S. This day which marks the celebrations of the working class and the labourers has put an end to their exploitation and unfair treatment. Labour Day is also known as May Day and Worker Day, a date that is commemorated globally to pay tribute to the struggle of workers for their rights and decent working conditions.

K.N. Bakshi College of Education has observed the Labour Day. A meeting was organised in the auditorium of the college, where all the teaching, non-teaching staffs and students were present. At the commencement of the programme, Principal Dr. Ravindra Kumar on his address informed that "The origins of International Labour Day was traced to a massive walkout by thousands of workers in Chicago, in 1886, demanding an eight-hour workday exhausted by 16 hours a day, without weekly rest. The strike they started had its epicentre in the industrial city of Chicago, in the United States, and quickly spread throughout the country, bringing together all the workers in protests throughout the national territory. This movement was violently put down by the police, resulting in six fatalities and numerous injuries. A larger protest was called in response to this violence. At last the U.S. Government bow down and accepted the demand of the workers and implemented the working conditions as per their demand. International Labour Day is celebrated every year to honour the contributions and achievements of workers around the world."

Conclusion: Mr. Ajit Kumar Singh on his conclusive remarks said that, International Labour Day or Workers Day stands as a testament to the enduring legacy of workers' struggles for justice and dignity. It is important to remember that International Labour Day is more than just a day off work. It is time to

AIDS AWARENESS PROGRAM

DATE:- 01.12.2018

AIDS is also known as Acquired Immunodeficiency Syndrome. It is a chronic and life threatening disease, caused by the HIV virus. In India, over 1 million people fall victim to this deadly disease. AIDS damages the immune system and freezes the ability of the body to fight infection and diseases.

Aim and Objective:-

World AIDS Day is a global movement to unite people in the fight against HIV and AIDS. Since 1988, communities have stood together on World AIDS Day to show strength and solidarity against HIV stigma and to remember lives lost.

- **The main aim of community awareness programs is to make the community more informed, alert, self-reliant and capable of participating in all activities.**
- **To prevent HIV/AIDS transmission by ensuring the availability of safe blood nationwide.**
- **To motivate men and women to talk openly about sex, sexuality, drug use and HIV/AIDS.**

Pratibha Singh
PRINCIPAL

- To encourage men to take care of themselves, their partners and their families.
- To promote program that respond to the needs of men and women.

About the Program:-

An awareness program was organized on the occasion of World AIDS Day at K.N. Bakshi College of Education. Its sole purpose was to make people aware about AIDS. In this awareness programme, a rally was organised by B.Ed trainees in Basanbari, Hadodih, Karamatand and Fursodih. In this program, the trainees made the villagers aware through street plays

On this occasion Principal Dr. Ravindra Kumar said that- The World Health Organization first declared World AIDS Day on December 1st, 1988, which is four years after the AIDS virus was first found. Ever since then, every year this international health day is celebrated to stand for people who are diagnosed with this deadly disease. Moreover, on this day it is our duty to spread awareness about HIV and prevent the human race from getting diseased.

Vice Principal Mr. Ajit Kumar Singh said that- Have we ever wondered what a person who is affected by AIDS has to face? How life could be difficult for them because they are carrying a deadly diseases? Mostly we would show sympathy and pity for their condition but would never show empathy for them. Inclusion is the most precious thing for people who are oppressed because of an ailment. This day is to stand with the people who have AIDS and to support them.

Mr. Binod Kumar Suman said that- Every year World AIDS Day is celebrated on a specific theme. It is a call to action to end all forms of bias faced by patients of AIDS. We all must urge to address the inequalities which are staggering the progress in ending AIDS. Every year, governments of various countries, civil societies and the United Nations join together to campaign about themes related to World AIDS Day.

Dr. Rajesh Ravidas said that- The virus still remains undefeated in spite of many scientific advancements. A person who is affected by HIV must be on lifelong medication as it is a chronic disease. A sad reality about this virus is that people do not know how to protect themselves and others from HIV. Social stigma and discrimination affect the many people living with the condition more than the virus.

OUTCOMES:-

We must continue to back campaigns like these, fund research, expand access to healthcare, and push for laws that place a higher priority on HIV prevention and treatment. Let this campaign be a reminder that together, we have the power to create a future where HIV/AIDS is no longer a threat to our youth.
