DATE: - 24/02/2022 (Thursday)

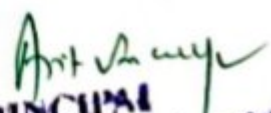

Today date:-24/02/2022 (Thursday) Under the aegis of National Service Scheme (NSS) B.Ed trainees participated for **LOCAL LEVERGING KNOWLEDGE** in K.N. Bakshi College of Education.

Main objective of this program- Many teaching resources – not just textbooks – can be used for teaching. If you use methods that use different senses (sight, hearing, touch, smell, taste), you will appeal to students' different ways of learning. There are resources available all around you that you can use in the classroom, that can help your students' learning.

On this occasion, Principal of the college, Dr. Ajit Kumar Singh said that- You will find people in your immediate environment who are versed in a wide variety of subjects; You will also find many types of natural resources. This allows you to make connections with the local community, demonstrate its importance, encourage students to see the abundance and diversity of their environment, and perhaps most importantly, take a holistic approach to the learning of students – that is, within the college and Working toward adopting outside education may help.

Today, in this program, the B.Ed trainees along with the teachers first understood how different types of materials are made from bamboo and how it is easily available to all of us, which included things made from bamboo like moni, soup, basket etc. People who are expert in making such material can make it very easily, whereas we fail to make the same things.

After this, all the B.Ed trainees went to a maker of different types of items from clay, where they saw that a potter was making different types of items from the same type of clay, which mainly included cups, pots, pitchers, Items like jug etc. were included. Here, the teachers and trainees also tried to operate the potter's wheel on which various objects are made by placing clay on it, but failed. Because it is not possible to learn it in one go, it is the result of continuous effort.

HOLI MILAN SAMAROH & RANGOLI COMETITION

DATE :- 15/03/2022 (Tuesday)

REPORT

Today date:- 15/03/2022 (Tuesday) Holi Milan ceremony was organized under the aegis of National Service Scheme at K.N. Bakshi College of Education. Holi is also known as Dhulendi in some places. Holi, one of the biggest festivals of India, is a joyous festival representing the spring season with colors, enthusiasm and many other things. Every year we celebrate this day, which falls in the month of Phalgun in the beginning of March, to commemorate the victory of good over evil.

On this occasion, Rangoli competition related to Holi was also organized in the college, in which Rani Lakshmi Bai Group stood first and Sarojini Naidu and Tagore Group stood second and third respectively.

On this occasion, Principal of the college, Dr. Ravindra kumar said that- Holi, the festival of love, happiness and colors, has great significance because on this day the victory of good over evil was celebrated. Socially, this festival is a symbol of unity, brotherhood and love. The festival of Holika Dahan is celebrated a day before Holi. On this day, people take rounds after lighting a fire, doing this destroys the evils around.

Vice-Principal Dr. Ajit Kumar Singh said that - It is a day of celebration to eliminate past mistakes and get rid of them, a day to end conflicts by meeting others, a day to forget and forgive. People repay or forgive debts, as well as deal with them anew in their lives. Holi also marks the beginning of spring, an opportunity for people to enjoy the changing seasons and make new friends.

Mr. Binod Kumar Suman said that - The lesson of Holi tells us that there are colorful difficulties in life, but we should learn to face and fight them. In this festival, everyone enjoys happiness with each other and gives the message of harmony.

Dr. Santosh Kr. Yadav said this occasion - Holi is a festival when friends, relatives and family members all celebrate together and this

strengthens family relationships. When we meet our loved ones, our mind becomes lighter and relationships become sweeter and when we come together as one. When we talk to others, the mind relaxes.

Mrs. Reshma Agrawal said that - Happy Holi! Let's celebrate the victory of good over evil with love, laughter and lots of colors. Happy Holi to you and your family! May your life be colored with success and prosperity as we spread the colors of happiness and love.

Student Pragati Kumari said that - Holi festival is a very happy occasion for all of us trainees. On this day we forget everything and celebrate by applying different colors and gulal, because this day is considered the victory of good over evil.

Anjela marandi said that - Holi, with its explosion of colours, is a visual feast that marks the arrival of spring and celebrates the victory of good over evil. But beyond the surface of fun and frolic, it conveys a deeper message about the human spirit's capacity for love, forgiveness, and renewal.

In today's program, College Principal Dr. Ravindra Kumar, Vice-Principal Dr. Ajit Kumar Singh, Mr. Binod Kumar Suman, Mr. Prakash Bardhan, Mr. Pawan Kumar Suman, Dr. Rajesh Ravidas, Dr. Santosh Kumar Yadav, Mrs. Reena Sao, Mrs. Reshma Aggarwal, Mr. Jaiprakash Kumar, Mr. Binay Kumar, Mr. Bikram Kumar and all the B.Ed trainees were present.

In this everyone expressed their views and congratulated each other by applying gulal.

OUTCOMES :-

- Just as Holi festival is considered the messenger of spring, similarly according to religious beliefs, this festival is celebrated as the victory of good over evil. On this day, everyone forgets their differences and applies color to each other, in which red color is considered very important.
- The energy of colors has a positive effect on a person. Rangoli made with colors and flowers spreads auspicious energy in the house and courtyard. It also has a direct impact on health. Ancient studies show that Rangoli has a direct connection with the energy present in the house.

Importance Of Educational Tour :-

- ❖ Educational Tours are incredibly enriching and educational for students. Educational tours provide the opportunity for students to learn about different customs, traditions, and ways of life in other countries or regions. These tours are organised to focus on specific subjects, such as history, language, art, or science, or they can be more general in nature, allowing students to experience a wide range of cultural and educational activities.
- ❖ By participating in an educational tour, students gain first-hand exposure to different cultures, historical sites, and natural landscapes. On this occasion, the Principal of the college, Dr. Ravindra Kumar said that - Educational Tour are not merely outings; they are vital components of a comprehensive educational strategy. They bridge the gap between theoretical knowledge and its real-

world application. By providing students with tangible experiences, Educational Tour make learning more engaging, memorable, and relevant. Furthermore, they promote critical thinking, enhance observational skills, and nurture a sense of curiosity and wonder.

Dr. Ajit Kumar Singh said that - The great outdoors naturally ignites curiosity. Students, when exposed to unfamiliar terrains or novel experiences, are prompted to observe, question, and explore actively. This heightened engagement translates to a deeper connection with the subject matter, as the learning process becomes self-driven and exploratory.

Mr. Binod Kumar Suman said that - Perhaps one of the most enduring benefits of outdoor education is its potential to inspire lifelong learning. The transformative experiences, profound insights, and memorable moments encountered outdoors often kindle a lifelong passion for exploration, inquiry, and discovery. Students become lifelong learners, driven by curiosity and a thirst for knowledge.

Dr. Santosh Kr. Yadav said that - The primary purpose of educational trips is to enhance classroom learning. They provide an opportunity for students to see, touch, and experience what they have learned in the classroom. For example, a visit to a museum or art gallery can give students a better understanding of art, history, and culture.

Mrs. Reshma Agrawal said this occasion - Apart from building academic capability, Educational tour also aims at building life skills such as team work, communication, problem solving skills and decision making that are only obtained

Report - 07/09/2022

of Promoting Jharkhand Culture: A Path to Preserving Heritage and Fostering Identity

A Path to Preserving Heritage and Fostering Identity Program held at K.N.Bakshi College of Education, Bengabad, Giridih . The Program was held on 07/09/2022 and was Organized by Student Council.

This Program highlights the importance of promoting Jharkhand's rich cultural heritage and traditions, aiming to preserve its unique identity amid modernization and globalization. By encouraging cultural activities, local arts, traditional practices, and indigenous knowledge, the state of Jharkhand can establish itself as a cultural hub and foster a sense of pride among its residents.

Jharkhand, located in eastern India, is known for its diverse and vibrant culture, rooted in tribal traditions, folk arts, and indigenous practices. Over the years, the state has experienced significant changes due to urbanization and increased connectivity. This report outlines the potential benefits and strategies for promoting and preserving Jharkhand's cultural heritage.

Organizing regular cultural festivals and events showcasing local art forms, music, dance, and crafts can serve as a platform for artists and artisans to display their talent. These events can attract tourists and visitors, creating economic opportunities for local communities and generating cultural exchange.

Supporting Traditional Arts and Crafts:

Jharkhand is home to numerous skilled artisans who create intricate handicrafts and artwork. Establishing art and craft centers that offer training, support, and market access to these artisans can ensure the continuity of traditional art forms and boost their livelihoods.

Introducing Jharkhand's cultural heritage in the school curriculum can instill a sense of pride and identity among young generations. Encouraging cultural activities and traditional games can help children connect with their roots and develop an appreciation for their local heritage.

Organizing cultural exchange programs with other states and countries can foster a broader understanding of Jharkhand's culture while allowing locals to experience and appreciate other cultures. Such exchanges can promote mutual respect and global awareness.
